1. Select **Start**  > **Settings**  > **Accounts**  > **Sign-in options**.
2. Under **Manage how you sign in to your device**, you'll see three choices to sign in with Windows Hello:
  - a. Select **Windows Hello Face** to set up facial recognition sign-in with your PC's infrared camera or an external infrared camera.
  - b. Select **Windows Hello Fingerprint** to set up sign-in with a fingerprint reader.
  - c. Select **Windows Hello PIN** to set up sign-in with a PIN.

### What data is collected, and why

When you set up Windows Hello biometrics, it takes the data from the face camera, iris sensor, or fingerprint reader and creates a data representation—or graph—that is then encrypted before it's stored on your device.
